with the experts you need
to find innovative solutions.

WHO ARE WE?

ACC&CE is a not-for-profit organization of technical consultants serving the chemical, energy and related industries. We have been in operation since 1928.

We are a powerful and convenient single source for specific technical expertise. Our members have skills and experience that span the chemical and chemical engineering aspects of practically every technical and commercial field. We represent a unique pool of talent with the knowledge and practical experience to help your organization pursue its goals and solve its problems.

ACC&CE can recommend experts to help your staff accomplish those goals in an efficient and cost-effective manner.

Our wide range of member skills, knowledge and experience can provide both short and long-term assistance as needed.

WHO SHOULD USE OUR SERVICES?

ACC&CE serves organizations and individuals including CEOs, entrepreneurs, attorneys, managers, publications, manufacturers, processors, refiners, laboratories, distributors, transportation services in the chemical, energy and related industries. Our members can help develop action plans, organize programs and direct and revitalize projects. We can help solve technical, managerial and manufacturing problems.

AT NO COST

There is never a charge to a client for an ACC&CE referral. ACC&CE puts the prospective client in contact with the individual consultants directly. Clients choose a consultant and make all contractual and payment arrangements directly with the consultant.

COMMITMENT TO EXCELLENCE

ACC&CE is committed to helping clients solve and avoid problems. We represent professional chemists and chemical engineers who are dedicated to serving their clients in an ethical and professional manner.

As independent consultants, ACC&CE members are objective in their recommendations for each specific client situation, providing qualified third-party opinions to enable confident management decisions. All ACC&CE members are vetted to ensure that we adhere to the ethical qualities required for client confidence and professional success.
