ON BEING AN EXPERT WITNESS

ABSTRACT

Have you ever thought about a lucrative way to use your consulting and scientific background? The Association of Consulting Chemists and Chemical Engineers has a good suggestion: develop your talents as an expert witness. Three members of the Association will describe how any accomplished professional can learn the skills to be an expert witness. ***You could be earning a lot of Expert Witness fees by applying the knowledge that you already have!***

- What an expert is and does.
- Roles of the expert witness in typical cases.
- Skills needed to be an effective expert witness.
- Potential impact a witness might have from testifying.

BIOGRAPHIES

David Manuta, Ph.D., is an internationally renowned expert in the application of fundamental chemical principles to solve problems and is often called upon as an expert witness in industrial and legal investigations. He has participated in over 30 cases involving major firms.

Marvin DeTar, Ph.D., has served as an expert witness in helping others understand the running of organizations. His expertise has provided legislators who wanted to understand proposed legislation that contained chemistry terminology – an analysis, especially as it pertained to enforcement provisions and how these would impact the State and the public.

John C. Fetzer, Ph.D., is an expert in analytical chemistry as well as petroleum and its refined products. He has been retained as an expert witness in approximately 40 cases ranging from patent infringement and the use of trade secrets to product liability and compliance with environmental regulations.

Full biographies may be found on our website: www.chemconsult.org.

JOIN ACCCE

To join ACCCE, please contact Heather Wahab, Ph.D. (Membership Chair) at wahabta@gmail.com. The first year is a free trial membership; after vetting and upon approval of the Board, full membership is offered at a nominal cost, which includes listing in our directory and website.
